Recycling News....

RECYCLE MY CELL RECYCLING PROGRAM

This program, for mobile devices and accessories, will divert waste from our local landfills, help the environment, decrease the need for raw materials to produce new products and generate revenue for various charitable organizations across Canada.

Phones and accessories are sent to certified processing facilities located in Canada, where they are separated based on whether or not they can be refurbished or reused. Whether reused or recycled, your old phone stays out of the landfill.

The Recycling Society is now collecting:

Mobile/wireless devices that connect to a cellular or paging network, including all cell phones, smart phones, wireless personal digital assistants (PDAs), external aircards, and pagers - regardless of make, model or condition.

Cell phone batteries and accessories, including headsets and chargers.

MAKE SURE YOU DELETE ALL YOUR PERSONAL INFORMATION

You can bring your devices to the INSIDE DEPOT, found in the Public Works Building during our open hours:

Saturday 10am-2pm

Sunday 2pm-6pm

Tuesday 4pm-8pm

The AGM of the Port Alice Recycling Society resulted in a change in executive. The new President is Emily Easu (aka Em Pickett), Gail Neely remains the secretary/secretary, Cathy Anderson volunteered to continue with the Recycling News articles. Volunteers are always welcome, drop by the Municipal Transfer Station and Recycling Depot during open hours.

Tips for Managing Insect Pests

- Lawn grubs tend to prefer soft, weak roots- a sign you've over fertilized. Use natural fertilizer for slower, steadier growth all year. (fall is best)
- Grubs in your lawn can be controlled naturally through the use of nematodes-microscopic worms that kill grubs and other pests. Be sure to follow the directions.
- Mix 100ml of crushed hot peppers with 400ml of water. Strain and spray on bug infested plants. (Note that peppers can irritate eyes and skin). Do not use on windy days or during strong midday sun.
- Finely chop 10 to 15 cloves of garlic and soak them in 500ml of mineral oil for 24 hours. Strain the solution and spray as is, or dilute it with water before applying. Use selectively as it also affects beneficial insects.
- Hose down plants and shrubs with water to rid them of aphids, whiteflies, and spider mites, being careful not to damage flowers or buds.
- Keep slugs away by finely grinding eggshells and sprinkling them in a ring around each plant.
- Make a spray for aphids, black spot and fungus diseases by steeping 6 rhubarb leaves in 2-3 quarts of boiling water. Apply to affected plants when water has cooled.
- Make a tantalizing trap for slugs and earwigs by pouring two or three centimetres of beer into a shallow dish (empty tuna fish cans work well). In a shaded spot, place the dish in the soil so the rim is just a bit above ground level. Every few days, empty our the trap and refill. Use this method only when necessary as it can also drown beneficial creatures.

BICYCLE SAFETY ACTIVITY SHEET (AGES 8 TO 11)

## ACTIVITY #1: SAFETY BASICS

### Top Bicycle Safety Rules

1. Always wear a properly fitted bicycle helmet to protect your head - every time you ride.
2. Use a bicycle that is the appropriate size for you, not one that is too big.
3. Before you ride make sure you don't have any loose clothing, drawstrings, or shoelaces; they can get caught in your chain and make you fall.
4. Have an adult check the air in your tires and that your brakes are working before you ride.
5. Wear bright clothes so others can see you at all times of the day.
6. Stay alert at all times; never listen to music when riding. Pay attention and watch for cars, people, and other bicyclists around you.
7. Don't bicycle at night. If you must ride, make sure your bike has reflectors and lights and wear retro-reflective materials on your ankles, wrists, back and helmet.
8. Before you enter any street or intersection check for traffic by looking left-right-left to make sure no cars or trucks are there.
9. Learn and follow the rules of the road.

### Rules of the Road

1. When riding in the road, always ride on the right hand side (same direction as traffic).
2. Obey traffic laws, including all the traffic signs and signals.
3. Ride predictably—ride in a straight line, don't weave in and out of traffic.
4. When riding on a sidewalk -- show respect for the people walking on the sidewalk. Ring your bell to let them know you are coming and always pass them on the left.
5. Look for debris on your route that could cause you to fall off your bicycle, like trash, stones, toys.
