

Weight Room Covid updates

After consultation with the Public Health Officer, the following guidelines will be in place for the weight room until further notice.

- Masks do not need to be worn during workouts, please use them when using the hallways, washrooms, or other shared areas of the building.
- 3 users maximum at a time
- Continue to be diligent about cleaning each area after use
- Maintain distancing with other users

As of September 12th, 2021, Provincial regulations require users to have at least the first dose of vaccine.

Please contact the Village Office with proof of vaccination before this time. Any users that do not show a vaccination card (or passport when they become available) will not be able to use the facility. Thank you for your understanding while we work through the provincial mandates.
