

## VILLAGE OF PORT ALICE

### REPORT TO COUNCIL - *Late Item*

---

**To:** Mayor and Council  
**From:** CAO / CFO  
**Date:** January 23, 2023  
**Subject:** CEPF Emergency Support Services Grant

---

The Community Emergency Preparedness Fund has three funding streams which are intended to help local governments and First Nations respond to emergencies. The funding is provided by the Province of BC and administered by UBCM.

The Emergency Support Service Funding Stream is accepting applications with a deadline of January 27, 2023. The funding information was given to our Emergency Coordinator, Bruce Moores who has requested that we apply for funding for emergency food and water supplies.

I have attached quotes from a Canadian supplier for reference.

**RECOMMENDATION:** THAT the Village of Port Alice apply to the CEPF – ESS Stream for \$ 17,000 to purchase emergency food rations and drinking water for our ESS supply trailer and FURTHER THAT grant management be provided by the Village of Port Alice's CAO/ CFO.

- 1 +

ADD TO CART

Augason Farm's premium 1-Year survival food kit is the ultimate emergency preparedness food solution for three people. It comes with 36 waterproof pails, each providing plenty of great-tasting, nutritious, and easy-to-prepare food. You'll be pleased with how easy the meals are to prepare. Most simply require adding water and simmering on the stove for 15 to 20 minutes. It's that easy to enjoy a much needed hot meal.

- Made with nutritious and highest quality ingredients

- **Total of 36 Waterproof Pails** - providing lots of delicious and easy-to-prepare meals for 3 People every month for a full year
- **Every Pail Includes** - 10 meal varieties in 35 pouches, 307 servings, 54,670 calories per pail - averaging over 1,800 calories per day
- **Stackable and Durable** - square pails are much easier to stack, maximizing storage space. These will not collapse from high altitude pressure either.

ALL FOOD SALES ARE FINAL. NO EXCHANGES OR REFUNDS.

**2X THE SHELF LIFE. 3X MORE PROTECTION!**

Plastic water bottles are a petri dish of mould, bacteria, and chemicals. Ready Hour Emergency Water Pouches keep your water clean with four puncture-resistant layers of protection.

It's why they have a **FIVE-YEAR SHELF LIFE**.

### REVERSE-OSMOSIS FILTRATION

Water is filtered multiple times through reverse-osmosis purification. This process clears out bacteria, viruses, and chemicals **down to the microscopic level**.

### FIT GALLONS OF WATER INTO YOUR BUG-OUT BAG

Each pouch is nearly flat, six inches long, and **easy to squeeze into tight spaces**. Now you can fit GALLONS of water into your bug-out bag!

### MORE WATER, LESS LEAKAGE

We all know water bottles leak once they're opened.

Ready Hour Emergency Drinking Water comes in **SINGLE-USE** pouches that reduce spillage and conserve water in emergencies.

### SPECS

- 4.227floz Water Per Pouch
- 6in x 4in x 0.5in Per Individual Pouch
- 64 Pouches in a Case
- Case Total Volume: 279oz (2gal)
