### Municipal News

May 2023

It looks like Spring is finally going to make an appearance! We have had bears roaming close to town and would like to remind everyone to take responsibility for ensuring there are no attractants available for wildlife to access.

Public Works recently found a tote and bag of rotting fishing left near the Mill Road, a couple of kilometers out of town. This is why bears are killed – human's selfish actions. There are so many ways to dispose of waste properly, there is no excuse for this.

May 7-13 is Emergency Preparedness week. There are so many ways to educate yourselves on properly preparing you and your household in case of an emergency. The Community Centre has info packs, the Port Alice Emergency Facebook page has regular info, and there are links on the [portalice.ca](http://portalice.ca) website to help you prepare. It is each of our responsibilities to make sure we are prepared for at least 72 hours after an emergency. The Community Centre has some fun activities and prizes to help you Get Prepared this month!

Thank you for your patience while the crews work on improvements around town! The sidewalk improvements are almost complete, and the Kayak building and dock are in the works. Six more streetlights have been replaced, and several other small projects are in the works to keep improving our community.

### Village Council Meetings

Council Meetings are held the 2nd & 4th Wednesday of the month in the Village Council Chambers at 6:00pm. If there is an issue or concern that you wish to address Council about, you may request delegate status by submitting a signed letter of request by 4:30pm on the Thursday prior to the next meeting.

(Some exceptions apply).

**Ask for details at the Village Office or look online at [www.portalice.ca](http://www.portalice.ca)**

**Are you planning to replace a Wood or Pellet Stove? There's a **\$250 rebate** that can help reduce your costs!**

## COEXISTING WITH WILDLIFE

### A Bear Overview

BC is home to one of the highest populations of bears in the world ranging from 120-150 thousand. 14,000—25,000 calls per year are made to Conservation Officers regarding black bears. 60% of these call pertain to garbage.

***So what can you do to ensure best waste management practices are being done?***

- Be aware of non food attractants such as kitty litter, diapers, propane, oils and fragrant cosmetics etc.
- Use transfer station hours regularly
- Ensure all garbage bins are firmly latched
- Compostable items should be frozen until the morning of pick-up
- BBQ grills and grease pans must be cleaned after use and stored in a secure place
- Make sure to pick up ripe and/or rotten fruit/berries in a timely fashion

**A fed bear  
is a dead  
bear!**

#### Myth # 1: Fed Bears Are Tame

False. Fed bears can be more dangerous than wild bears because of their expectations of receiving food from humans.

#### Myth # 2: Bears Hibernate In The Winter

False. Bears are most active between April-November but in milder climates, or where they are continuously finding food bears may not go in their dens.

## TRANSFER STATION NOTICE
