## Stage 1 - Water Use Restrictions

During Stage 1 restrictions, a person may:

water lawns, trees/shrubs/flowers/vegetable gardens using a hose-connected or automatic inground sprinklers only if the following conditions are met:

\*premises with even numbered addresses on even numbered days

\*premises with odd numbered addresses on odd numbered days

Stage 1 restrictions shall be in effect between June 1 and September 30 each year, unless otherwise notified in accordance with this bylaw.

## Village of Port Alice Wood Stove Exchange Program

The Port Alice Wood Stove Exchange Program is designed to encourage residents to exchange their old, inefficient, non-EPA certified wood burning appliances for new EPA-certified wood burning stoves and inserts, and other qualifying appliances including gas, pellet and electric. (Some exceptions apply).

Port Alice residents who exchange their old wood-burning appliance for one qualified under the Program, are eligible to receive a **\$250 rebate**, providing that the old stove will be decommissioned and recycled.

**Ask for details at the Village Office or look online at [www.portalice.ca](http://www.portalice.ca)**

Are you planning to replace a Wood or Pellet Stove? There's a **\$250 rebate** that can help reduce your costs!

## COEXISTING WITH WILDLIFE

### A Bear Overview

BC is home to one of the highest populations of bears in the world ranging from 120-150 thousand. 14,000—25,000 calls per year are made to Conservation Officers regarding black bears. 60% of these call pertain to garbage.

*So what can you do to ensure best waste management practices are being done?*

- Be aware of non food attractants such as kitty litter, diapers, propane, oils and fragrant cosmetics etc.
- Use transfer station hours regularly
- Ensure all garbage bins are firmly latched
- Compostable items should be frozen until the morning of pick-up
- BBQ grills and grease pans must be cleaned after use and stored in a secure place
- Make sure to pick up ripe and/or rotten fruit/berries in a timely fashion

**A fed bear  
is a dead  
bear!**

### Myth # 1: Fed Bears Are Tame

False. Fed bears can be more dangerous than wild bears because of their expectations of receiving food from humans.

### Myth # 2: Bears Hibernate In The Winter

False. Bears are most active between April-November but in milder climates, or where they are continuously finding food bears may not go in their dens.

## **TRANSFER STATION NOTICE**

The Village Of Port Alice Transfer Station at the Public Works Yard is for **residential** use only. Contractors must dispose of waste at the 7 Mile Landfill.

Wood waste must be clean.

**The Transfer Station does not accept drywall or asphalt roofing tiles.**

Everyone can do their part to make the system work, please take the time to separate your waste properly and follow the signage placed around the yard.

-----  
Please refrain from flushing any type of disinfecting wipes, flushable wipes, or paper towel down your toilets. This will cause expensive damage to the Sewer System and can create issues for home owners as well.

### **Municipal Transfer Station (Outside)**

**721 Marine Drive**

Open to Port Alice Residents

**Hours extended until further notice.**

**Mon, Wed, Thur and Fri 11am - 5pm**

**Tue 10am - 6pm**

**Sat 10am - 4pm**

### **Recycling Inside Depot**

(Packaging and printed material)

Please drop off your **recycling** at the **inside depot** during operating hour

**Saturday 10 a.m. - 4 p.m.**

**Tuesday 10 a.m. - 6 p.m.**

Leave No Trace  
**SEVEN PRINCIPLES**

1. Plan Ahead & Prepare
2. Travel & Camp on Durable Surfaces
3. Dispose of Waste Properly
4. Leave What You Find
5. Minimize Campfire Impacts
6. Respect Wildlife
7. Be Considerate of Other Visitors

BRITISH COLUMBIA | DriveBC

[www.drivebc.ca](http://www.drivebc.ca)

resqme ROUTE 66

### SUMMER ROAD TRIP CAR CHECKLIST

- Car Battery & Engine**  
Make sure your car engine and battery are in great shape, because without them, you won't be getting very far on your journey.
- Tires**  
Check your tire alignment, tread, and pressure to make sure they're ready for the road. You can take your car to a professional or do it yourself!
- Brakes**  
Have your brakes & brake pads checked to ensure there won't be any issues down the road. And don't forget to top off your brake fluid!
- Fluids**  
They might be overlooked, but make sure to fill up on engine coolant, engine oil, power steering fluid, transmission fluid, and washer fluid.
- Personal Items**  
Dedicate some trunk space for water bottles, snacks, a first-aid kit, and blankets in case of an emergency.
- Safety & Repair Tools**  
Stock up your car with safety tools like our resqme™ to quickly escape a car entrapment. It's also great to carry some important car repair tools!

## Firesmart® your property

If you wait, you may be too late

### Priority Zone 1 HOME / 10 metres

*This should be a fire-resistant zone, free of all materials that could easily ignite from a wildfire.*

**REGULAR MAINTENANCE:**  
Regularly clean your roof, gutters, etc. of debris.

**FIRESMART RENOVATIONS:**  
As your budget allows, renovate your home with fire-resistant materials, mesh debris screens, a chimney spark arrestor, etc.

**FIRESMART LANDSCAPING:** Keep woodpiles, propane tanks, outbuildings and combustibles at least 10 metres away from your home. Consult the Firesmart® Guide to Landscaping for more tips.

**YARD MAINTENANCE:** Regularly mow your lawn. Remove deadfall, coniferous trees and other flammable vegetation. Sweep your decks and rake up tree needles, leaves and debris.

### Priority Zone 2 10 - 30 metres

*Reduce fuels in this area by thinning and pruning vegetation and trees. This will slow a fire's spread.*

**TREE SPACING:**  
Space trees at least three metres apart.

**PRUNING TREES:**  
Prune all branches within two metres of the ground.

**REMOVE SURFACE FUELS:** Regularly clean up accumulations of fallen branches, dry grass, needles and other flammable debris from the ground.

**PLANTING NEW TREES:** If you're going to plant new trees in this zone, consider planting deciduous species like aspen, poplar and birch. They have lower flammability rates.

### Priority Zone 3 30 - 100 metres

*Try to thin out trees and other vegetation. This will help reduce a wildfire's intensity and slow its spread.*

**THIN AND REMOVE CONIFEROUS TREES:**  
Space dominant trees at least three metres apart, and remove any understorey trees that are in close proximity that could act as a ladder for fire to move into the tree tops and spread. Retain deciduous trees which are resistant to wildfire.

**NOT YOUR LAND?** If there's property within 100 metres of your home that is owned by your neighbours, get them engaged in the Firesmart® Community Recognition Program!

**GET IN TOUCH:** Think your community is at risk to wildfire? Contact your municipal councilor, planning department or fire service to express your concerns.
